MULTILINE
Power Solutions

Our solar energy division is now proud to offer
**INSTALLATION OF “POWER INTAKE BOX”
FOR EV CHARGERS.**

We have done installations for Porsche Pakistan for upcoming TAYCAN electric, Mercedes Benz (Shahnawaz Ltd) for upcoming EQC electric and for AUDI Pakistan for e-tron electric.

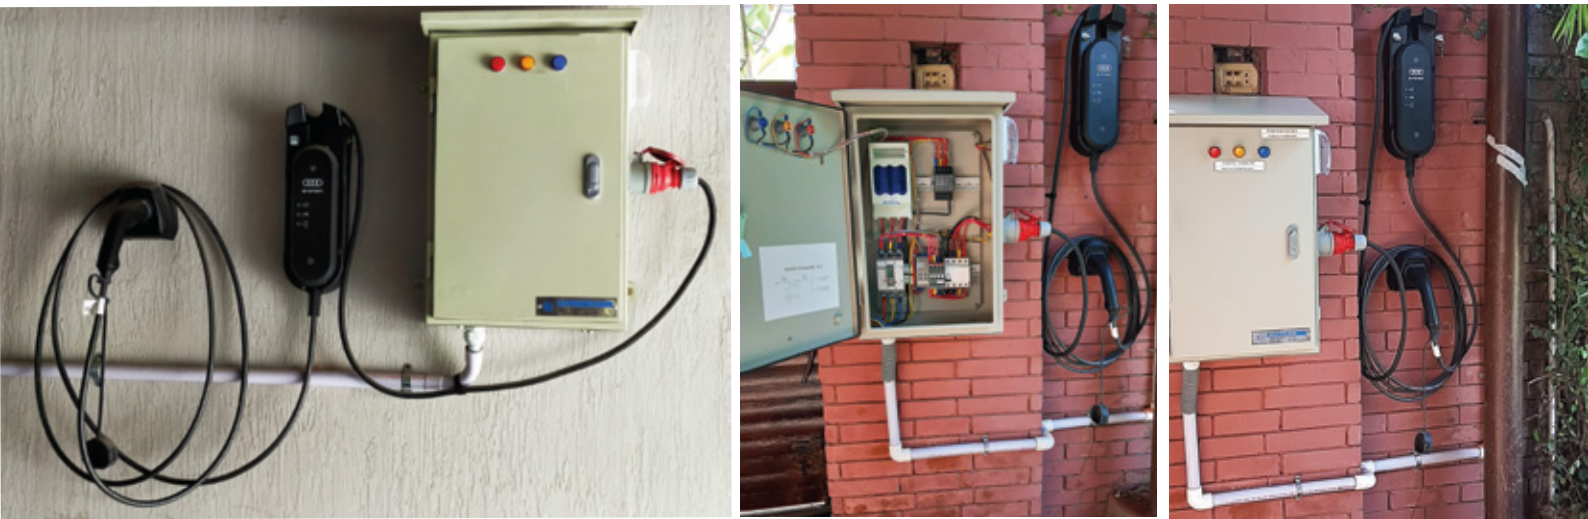

Why install Power Intake Box?

Power quality in Pakistan is poor and create many issues such as surges, spikes, brownouts and wrong phase sequence plague our power system.

PIB can offer complete protection from all these disturbances and provide longtime solutions to EV Infrastructure.

**MULTILINE HAS INSTALLED SIMILAR SYSTEMS
ON MORE THAN 10,000 BTS TELECOM SITES.**

We understand this better than anyone.

We offer

**ONE YEAR
WARRANTY**

Multiline Engineering Co. believes in intelligent and protective solutions for E-mobility infrastructure. Having 45 years of experience in power solutions and fusing it with authentic products will ensure the best protection for your electric vehicles in the years to come.
